The Marian

Presented by the
SENIOR CLASS
ST. MARY'S SCHOOL
San Antonio, Texas

Dedication

Rev. John Quinlivan, C.M.I.

To our esteemed pastor, a trusted guide and an invaluable friend, we sincerely dedicate this Marian of 1951. For his genial disposition, rare sense of humor, and unselfish guidance during the past six years, we, the students of St. Mary's, pray for his continuance in the faithful discharge of his priestly duties. We consider ourselves fortunate and privileged for having known Father John, whose presence has meant so much to us and to St. Mary's.

"To Our Lady"

Lovely Lady dressed in
blue—
Teach me how to pray!
God was just your little
Boy,
Tell me what to say!

Does He understand me
now?
Tell me—for you know?
Lovely Lady dressed in
blue,
Teach me how to pray!
God was just your little
Boy.
And you know the way.

Dear Graduates:

Probably you have been told by someone who thought he was being smart: "Cheer up; the worst is yet to come!" He thinks he has said something very funny. But you fail to see the humor in it, because it isn't funny at all.

Here you are facing life with its high ideals and strong hope. The years of school were spent in learning not merely facts and dates and words and numbers, but also how to think and live. Your Catholic education has prepared you not only for life hereabouts, but also for life thereabouts. Your whole past life up to the day of your graduation is the foundation for your future life.

These are the thoughts so well expressed in the class motto that you have so wisely chosen:

*The Best Is Yet To Be:
The Last Of Life For Which The First Was Made*

To which we, your priests, add a sincere "Amen—so may it be."

A Brand New St. Mary's For A Grand Old St. Mary's

PLAYGROUND

The roof of the building will be used as playground area and will be protected by parapet wall and chain link fencing. A portion of the roof area will be covered to serve as a shade area during activity periods. The new School will provide much more open play area than the present school.

CONSTRUCTION

The building will be constructed of brick and tile exterior walls, reinforced concrete frame with a structural glazed tile school corridors. Walls will be plastered. All major rooms will contain acoustical ceilings and continuous fenestration will be used in all class room areas. The front facade of the building will be faced with hard stone of contrasting color to the exterior face brick. Large glass entrance doors will open at sidewalk level. The entire building will be fireproof construction.

SITE

The New School address will still be 207 North St. Mary's St. No other site can be found as convenient for the entire parish, as centrally located, as adapted to our needs as a Parish Center and School. The old building will be torn down and the new one will rise in its place. A BRAND NEW S. MARY'S FOR A GRAND OLD ST. MARY'S.

Adequate arrangements are being made for quarters for school for the next year, so that school as usual will go on during the construction. Construction time will cover a whole school year, but we will take care of our children during that year.

THE SCHOOL

The School will contain two large classrooms on the first floor for the first and second grades, and six standard rooms on the second floor for the other six grades. Thus all classrooms are on two floors. Besides classrooms there will be a library, office, health room, music rooms, caretaker's quarters.

The heating system will be separately controlled for the school and for the auditorium, so that either may be turned on as necessary.

Every classroom will have southern exposure.

THE CONVENT

The Convent will be a two-story penthouse built atop the school in the back. The first floor of the convent includes Chapel, dining room, kitchen, laundry, sewing room, study hall and parlor. The second floor of the convent will be nine rooms for the Sisters. The area will be connected to all floors by elevator.

THE AUDITORIUM-GYM

The new Auditorium will be built so that it can be used as a junior gymnasium. The playing court will measure 42 by 75 ft. There will be stage and dressing rooms. A balcony runs along the south wall of the auditorium. Capacity will be 600. The Auditorium extends from basement thru the first floor, instead of, as now, from first floor thru the second floor. This was done so that all the classrooms would be on two floors only. Facilities will be provided for moving pictures and loud speaker system.

Sister Anne Marie

Good luck in the future.
